7 August 2018

Chris Creighton  
Group Manager, Business Technology Solutions  
Auckland Transport

Dear Chris,

I write to confirm Auckland Council's support to the "CCTV Shared Service for Auckland Region" board paper that is due to be presented to the AT Board on the 21<sup>st</sup> of August 2018.

Auckland Council, alongside AT, have been reviewing and designing what a suitable response to public safety ahead of APEC and America's Cup 36 and have decided an AT managed CCTV platform/capability meets the requirements of Auckland Council.

Please take this letter as endorsement from Auckland Council for this opportunity.

Yours sincerely,

Mark Denvir  
Director of ICT  
Auckland Council

Dear Chris

I am writing to lend ATEED's support for the Board Paper – "CCTV Shared Service for Auckland Region" ahead of the Auckland Transport Board Meeting on 21 August 2018.

From an ATEED perspective, the implementation of a Shared Service capability for CCTV services across the region is a collaborative project that would fit naturally into the legacy and leverage framework that ATEED is developing on behalf of the council family for APEC21 (and AC36).

The enhanced capability that integrated CCTV services would offer for its stakeholders would make a significant contribution to enhancing Auckland's ability to host a safe and secure AC36 and APEC21 over 2020/2021. In addition to standing on its own merits, the project presents a valuable legacy opportunity for the city from the hosting of these two significant international events, bringing benefits that would endure beyond 2021.

Yours sincerely

The Board of Directors  
Auckland Transport

Re: Police Support for CCTV Share Service.

Dear Members of the Board,

I write in support of the Auckland Transport Board Paper on CCTV Share Service for the Auckland Region.

For many years, NZ Police and Auckland Transport have been working in partnership with regard to CCTV to provide a safe and secure Auckland. The use of CCTV is recognised as a beneficial tool in supporting policing functions that seek to manage high crime locations and matters of public order.

Over the last 5 years the partnerships has been extremely successful in terms of preventing and resolving crime, preventing and responding to road trauma and managing large scale public protests and alcohol related harm and disorder.

NZ Police welcomes the opportunity to further work with Auckland Transport and Auckland Council in relation to the establishment of a CCTV Share Service for the Auckland Region.

Auckland Transport has over the past number of years made a significant investment into their CCTV solution and it is excellent that other organisations that help make Auckland safe and secure can leverage this investment.

I look forward to working with Auckland Transport and Auckland Council to deliver this outcome for Auckland.

Yours faithfully

Gary Davey  
Area Commander  
Central Auckland Area  
Auckland City District
